Your home
in **one app**

One for all!

Nexxt Solutions introduces its new **Smart Home Automation Series**. Designed to suit your mobile lifestyle while building a safe environment in and around your home, the brand unifies a comprehensive line of fully integrated devices into one user-friendly application. From smart plugs, power strips and bulbs to cameras and security kits, now you can control and run your home devices on your own schedule, even when you are not home.

With our **Smart Wi-Fi ceiling lamp**, you can easily set the mood of any room from your smart device, no matter where you are. The lamp's two lights allow you two create all kinds of lighting combinations. The one in the middle is a single white light that varies in shades and temperatures, from an intense cool white to the coziest and most subtle warm shade. You can combine this light with the outer ring, that adds a wide array of colorful options. The effects are inspiring and, most importantly, really easy to manage. The Nexxt Home app gives you the freedom to create any lighting atmosphere, set up schedules, and even make your lamp dance to your favorite music.

Highlights

- Go from the warmest to the coolest shade of white light
- The RGB backlight offers all kinds of colorful options
- All lights are dimmable to create the perfect environment in your room
- Voice control using Amazon Alexa or Google Assistant
- Create schedules to turn your lights on and off
- Create groups of devices for easy management of your gadgets
- Share remote access to the lamp with friends and family
