Description

Leviton | GF008UNI12LU-Eca | 12 Core Universal Duct-Grade Unitube OM4 Cable EuroClass Eca | Black

Leviton Duct-Grade Unitube OM4 Cable - 12-fibre multimode configuration with a universal duct-grade build. Designed for both indoor and outdoor use, it features a Low Smoke Zero Halogen (LSZH) jacket, which is crucial for installations requiring high safety standards in fire-prone environments. This cable is ideally suited for use in building and campus backbone applications where high bandwidth is required. The fibers are colour-coded according to TIA-598-C for ease of identification, and it includes a single gel-filled tube to block water ingress. **EuroClass Eca** certified for flame retardancy, the cable also integrates glass yarn armoring for strength and basic rodent protection, making it a robust choice for challenging installations.

*** This item is sold by the meter ***

FEATURES

- OM4, 12 fibres, single gel-filled tube for water-blocking
- LSZH jacket for low smoke and zero halogen emissions

- EuroClass Eca certified for flame retardancy
- Glass yarn armoring for strength and rodent protection
- Colour-coded fibres to TIA-598-C standards

SPECIFICATIONS

- **Type:** Duct-Grade Unitube OM4
- **Fibre Count:** 12 Fibres
- **Length:** Sold per Meter
- **Jacket:** Low Smoke Zero Halogen (LSZH)
- **Flame Rating:** EuroClass Eca
- **Application:** Indoor/Outdoor use, Building and Campus Backbone

WARRANTY

1-year limited warranty
