Your home
in **one app**

Light your moments in living color

Transform any corner of your home with a floor lamp designed to inspire. This smart RGBIC light delivers rich multicolor effects, warm-to-cool white illumination, and dynamic scenes that adapt to your mood, music, and daily routines. Create custom palettes, sync your lighting with your favorite songs, or let the AI Scene Creator design new looks from your photos. Control everything from your phone or with your voice, group it with other smart lights, and set schedules that fit your lifestyle. A modern, effortless way to brighten every moment.

Highlights

- Minimalist, modern accent lamp that enhances any room with a captivating ambient glow
- DIY color customization to design your own lighting effects
- RGBIC technology for vivid segmented multicolor illumination, plus tunable warm-to-cool white lighting
- AI Light Scene Creator automatically generates themed color palettes and dynamic scenes inspired by your photos and favorite moments
- Music sync mode brings your playlists to life with reactive lighting
- Full remote control through the Nexxt Home app—from anywhere
- Choose from 44+ preset scenes or create your own custom effects
- Group with other smart lights for immersive whole-room or whole-home atmospheres
- Integrates into Nexxt Home automation scenes with other smart devices
- Hands-free voice control with Alexa, Siri and Google Assistant
- Set schedules to turn on, brighten, or change colors automatically
- Share device access with family and friends
- Easy, fast pairing

simple. better. **smart**
