// Highlights

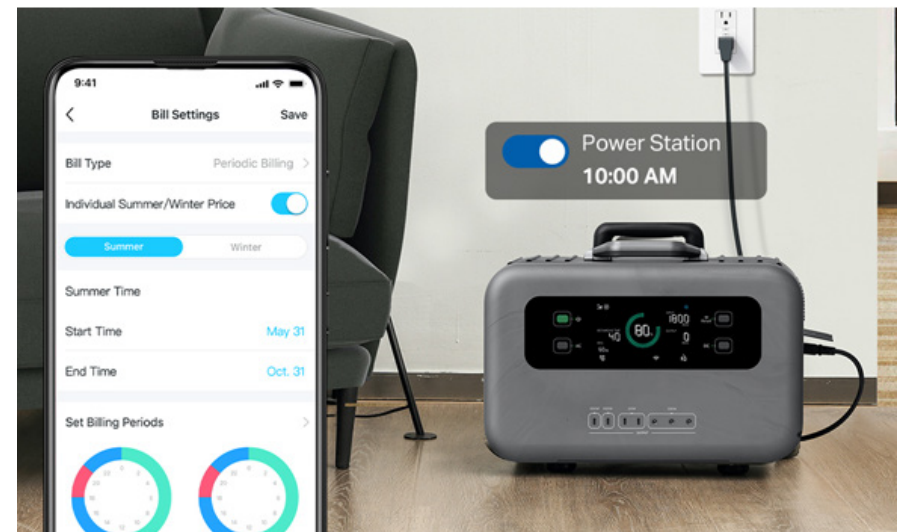

Insightful Energy Tracking

Track your plug's energy use with clear and easy-to-understand stats and intuitive charts.

Take Control of Your Energy Bill

Better manage costs with flexible billing options and smart scheduling. Schedule power-hungry devices for off-peak hours to automatically save money.

// Highlights

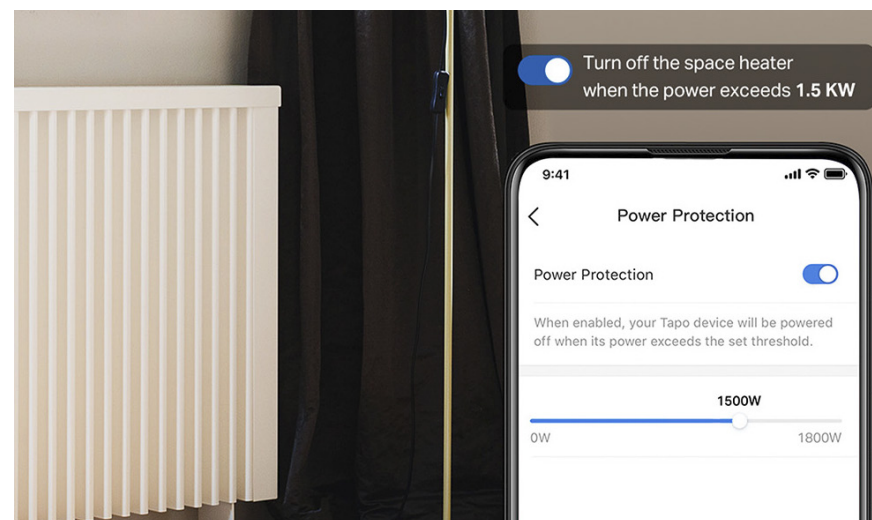

Anti-Overcharging

When devices are fully charged, the outlet will automatically switch off, preventing overcharging and extending the device's battery life.

Power Protection

Your connected device will automatically shut off when the power exceeds the set threshold, protecting your household's safety.

// Features

- **Energy Monitoring** – Tracks the energy use of connected devices and allows electricity rate input for bill estimates.
- **Anti-Overcharging** – When the phone is fully charged, the current is automatically switched off, preventing overcharging and extending the battery life.
- **Matter Certified** – Integrate Matter-certified Tapo devices with other Matter end products into your preferred ecosystem.
- **Zero-Crossing Detection** – Tapo is the first to bring industrial-grade zero-crossing detection to consumer smart plugs, preventing relay welding and extending plug lifespan by over 9 times.*
- **Power Protection** – Your connected device will automatically shut off when the power exceeds the set threshold, protecting your household's safety.
- **Smart Actions** – Set your plug to automatically turn on or off based on custom triggers, allowing your devices to seamlessly adapt to your lifestyle—all through the Tapo App.
- **Voice Control** – Manage your smart plug with voice commands via Amazon Alexa, Apple Siri, or Google Assistant.
- **Remote Control** – Manage your plugs anywhere, anytime with the user-friendly Tapo app.
- **Schedule & Timer** – Set schedules to automatically turn on/off your smart plugs according to your daily routine and preferences.

*Based on Tapo's laboratory results, actual effect may vary depending on working conditions and environments. Mainly suitable for capacitive load devices, such as lights, TVs, computers, chargers, etc.

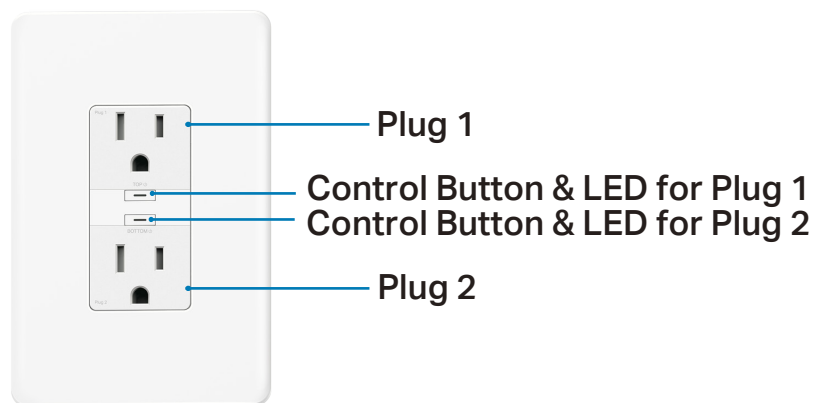

// Specifications

General

- LED&Button: Control Button & LED for Plug 1/2
- Material: V-0 (UL-94) Flame-Retardant PC
- Power Supply: 125 V~ 50/60 Hz, 15 A
- Max Load: 15 A (General Use/Resistive Load),
1/2 HP Motor[†]
- Protocol: IEEE 802.11b/g/n, Bluetooth (for setup only)
- Wireless Type: 2.4 GHz

Others

- Package Contents:
Tapo P210M ×1
Quick Start Guide
- Certifications: FCC, ETL, RoHS
- Operating Temperature: 0 °C – 40 °C (32 °F–104 °F)
- Operating Humidity: 10%–90% RH, Non-condensing
- Dimensions : 3.33 x 5.07 in (84.7 x 128.7 mm)

[†]The total power of the connected electrical equipment should not exceed the max load current, and maximum power supported varies based on the appliance.
Please do not use in damp environments or outdoors.
