

DC-140USB

**Mini DC UPS and power bank.
Network power at home,
mobile power on
the road**

This portable UPS is a DC uninterruptible power supply designed to extend your network power and internet availability in the event of electrical failures, while fully protecting all connected loads. It also ensures continuous operation of critical equipment, security devices and emergency lighting during a serious storm. Convenient LEDs on the front show the load levels of the UPS and alert you when it is time to recharge. Functional and easy to use, this compact and portable UPS also doubles as a USB charger for smartphones or other digital devices when you are on the go.

Highlights

- 24W multi-output portable UPS
- Built-in DC power bank
- 5/9/12VDC simultaneous output
- Over-charge, over-current, discharge, short-circuit protection
- USB and DC jack outputs

Ideal for:

- Modems and routers
- Security cameras
- Cell phones and tablets
- Biometric systems
- Alarm systems
- Emergency lightning
- Wireless devices
- Portable electronics

charging port

MPN	DC-140USB
General	
Capacity	24W
Input	
Nominal voltage	12VDC
Current	2A max.
Input type	DC 5.5x2.1mm input
Output	
Nominal voltage	5/9/12VDC
Current	2A
Over-current and step down protection	2A max.
Output type	One 12VDC 5.5x2.5mm output One 9VDC 5.5x2.5mm output One 5VDC USB output
Battery	
Type	2-piece power lithium battery
Capacity	4000mAh/14.8Wh
Indicators	
Visual indicators	LED power, charge, input indicators
Special features	
Protection	Over-charge, over-current, discharge, short-circuit
Physical appearance	
Housing	Fire retardant plastic
Dimensions	2.9x4.6x0.9in
Weight	0.8lb
Additional information	
Warranty	2 years
