

FDC-BT03K-12B

External battery bank

Optional battery banks can be connected to the Atlas UPS systems from Forza, to increase the overall runtime and also to allow users to maximize their current requirements, without the roadblock of having to discard and upgrade to a new product down the line.

- This battery bank is designed to work with twelve 12V 9Ah batteries
- The product includes:
 - Battery bank module (1)
 - Installation manual (1)
 - Battery to UPS connection cable (1)

Technical specifications

MPN	FDC-BT03K-12B
Input / output	
Input voltage	72VDC
Output voltage	72VDC
Capacity	18Ah
Battery breaker	50A max
Battery	
Type	Maintenance-free sealed lead-acid battery
Expected battery life	3 to 5 years
Expandable battery runtime	Includes a second input/output connector to daisy-chain multiple battery packs
Battery voltage	12VDC
Battery volt-amp-hour capacity	9Ah
Battery quantity	12
UPS connection	Detachable cable with UPS specific DC connector (91.4cm in length, 6 AWG)
Physical features	
Form factor	Tower
Color	Black
Construction material	Metal
Dimensions (HxWxD)	13.3x7.5x17in
Net weight	39kg
Environmental characteristics	
Operating temperature	32°F-104°F
Operating relative humidity	0-90% non-condensing
Operating elevation	<4000m
Storage temperature	32°F-95°F
Warranty	
Standard warranty	Two years
