

FUB-1245

Utilizing the latest innovations in the lead acid technology, Forza introduces the versatile, rechargeable and fully portable FUB-1245 battery.

Its unique sealed construction provides maintenance-free operation, with the advantage of being mounted in any orientation without capacity loss or fear of electrolyte leakage. This advanced AGM battery with thick plates and high density active material provides an extra margin of performance and service life in float and cyclic power applications. This rugged battery is ideal for a wide range of uses, such as UPS power supplies, emergency lighting, power tools, security systems and much more!

Highlights

- Multipurpose: Float or Cyclic use
- Long service life: 5 years in float standby applications, and over 260 discharge/charge cycles
- Sealed and maintenance free operation
- Rugged, non-spillable construction design
- Safety valve installation for explosion proof
- High quality and high reliability
- Low self-discharge characteristic
- Flexibility of design for multiple install positions
- Exceptional deep discharge recovery performance
- One year full warranty

MPN	FUB-1245
Output	
Battery output voltage	12V
Battery ampere-hours	4.5Ah
Batter type	Sealed-lead-acid battery
Physical features	
Color	Black
Weight	2.6lb
Dimensions	3.5x2.8x4.0in
