

EverRest

Wireless vertical mouse

A mouse with a grip on ergonomics

Looking for a truly sleek and ergonomic mouse? The Klip Xtreme vertical mouse is thoughtfully sculpted to fit in the hand of those who spend most of the day in front of a computer. Its shape promotes greater operability by having its six buttons conveniently positioned right where your fingers rest. Ultimate connectivity is achieved through its ultra-compact 2.4 GHz dongle that virtually has no lag or interference. Armed with a high-definition sensor with selectable speeds, it, delivers flawless tracking on virtually any surface. A mouse as unique and comfortable as the **EverRest** naturally stands out from the crowd!

Highlights

- Wireless 3D six button vertical mouse, with a revolutionary ergonomic design for the ultimate comfort
