## Professionally designed to keep up with your highest standards

Enjoy all the benefits this highly professional-looking wireless keyboard and optical mouse combo has to offer. The keyboard features a split layout and an integrated hand rest, which help to provide a more natural wrist position and maximum comfort during long working sessions. The ergonomic mouse also features an ultra-compact 2.4 GHz dongle that virtually has no lag or interference, and an adjustable resolution of 800,1200 and 1600dpi for a faster response. Navigate the web with ease through the built-in Internet hotkeys as well as through the navigation buttons located on the side of the mouse. Make scrolling more convenient with the scroll wheel located in the middle of the key layout. The advanced laser technology allows you to slide the mouse flawlessly in virtually any surface. The power switch in both devices helps to greatly extend battery life. With superb features this keyboard and mouse combo will surely exceed all your professional expectations!

## Highlights

- Ergonomic contour design with split key layout minimizes forearm muscle strain
- Integrated hand rest encourages a natural hand and wrist position for maximum comfort during long working sessions
- Internet hotkeys for instant access to e-mail and web browsing applications, among others
- Built-in scroll wheel for enhanced navigation control
- Low-profile chiclet keycaps for a comfortable and quiet typing experience
- 2.4 GHz RF wireless technology and On/Off switch for battery saving life
- Ultra ergonomic mouse with adjustable DPI switch for a faster response
- Advanced laser sensor technology for improved performance and reliability
