

Articulated corner or flat wall bracket

for LED/LCD and plasma displays

Bubble level system

Full motion
Tilt -10°+12° / Swivel 90°

Max load
99.2lb

Fits TVs
from 32-65 inches

Corner, angled and
flat wall compatible

Enhance your viewing potential!

With innovation in mind, this unique articulated mount offers a versatile and space-saving solution for mounting your TV at any corner in the room. The two arms independently articulate to dynamically adapt to any surface: flat, angled or corner walls. Ideal for entertainment centers and home cinema use, it provides maximum flexibility for stationing your TV at the optimal location and viewing angle. Its heavy-duty steel construction makes it one of the strongest of its type, with a load capacity of up to 99lb. This functional VESA compliant mount is easy to install, so you can set it up and start enjoying your favorite movies and shows within minutes!

Highlights

- Articulated bracket specifically designed for centered and off-centered corner installations, including flat walls
- Extremely flexible, great for placing your TV on any wall
- Supports screens ranging from 32 to 65 inches, weighing up to 99.2lb
- Dual arm design prevents sag by using two walls for support
- Full motion capabilities make it easy to retract, tilt, swivel, extend and collapse
- Open back plate architecture ensures convenient access to the back of the TV and cables
- Solid construction, made of heavy-gauge steel
