Orbix
Six-button ergonomic wireless mouse

Nano dongle	Ultra ergonomic design	Adjustable speeds of 1000/1200/1600DPI	6 buttons	2.4 GHz Wireless

High on comfort and reliability for your day-to-day productivity

The KMW-500 has been designed to provide ultimate comfort when you need to work long hours in front of the computer. Its contoured shape will allow you to keep a more natural hand and wrist position while relieving any tension and providing maximum cursor control. Get greater operability with its six highly responsive buttons conveniently positioned right where your fingers rest. Switch to different DPI resolutions with a single click and enjoy the smooth and precise tracking this mouse has to offer no matter the surface you slide it on.

Highlights

- Wireless six button mouse with an ergonomic and contemporary design for ultimate comfort and functionality to optimize your business environment
- It promotes a more natural hand, wrist and forearm position reducing strain and increasing everyday productivity
- It features a compact dongle that can be conveniently stored in the bottom of the mouse or left connected to your laptop for maximum portability
- Plug and play configuration
- Adjustable 1000/1200/1600 DPI resolution
