Conferencing headset with in-line command capsule

USB Connector

In-line command capsule

Adjustable microphone

Ultimate clarity for your calls, music and movies

Jam to the beat of your own music with the KSH-290 stereo headset. A comfortable yet adjustable design provides long-lasting use, so you can wear it all day long without causing any discomfort. 27 mm diameter drive units deliver a wide frequency response, lower distortion and also a deeper bass you can really feel. Whether you're listening to music or playing an action-packed video game, the KSH-290 provides superior quality audio reproduction, and the best performance for your most demanding applications.

Highlights

- Lightweight stereo headset
- Handy in-line command capsule
- Omnidirectional microphone with adjustable arm
- Ideal for PC interactive gaming, internet voice chats, conferencing, mobile phones and a wide range of portable devices
- Adjustable headband and foam earpads provide comfortable listening for hours on end
