NHS-D150 ST NHS-D150 BK

No hub required

Lock with confidence. Unlock in style

The Nexxt Solutions Smart Wi-Fi® Door Lock redefines the way you enter home. Designed to fit your digital lifestyle, it combines advanced security and full connectivity in an easy-to-install device. Forget keys as you knew them—unlock your door using a fingerprint, numeric code, digital key, mechanical key, or directly through the Nexxt Home app.
Heading out? The Autolock feature secures your door automatically. Expecting guests? Create temporary codes for up to 30 users. Want to know who came in and when? The activity log keeps track of every access and failed attempt—all from your smartphone, with no hub required.
Compatible with most residential doors and powered by AA batteries, its sleek design doesn't just look good—it's built to withstand everyday use. With Nexxt Home, smart security starts right at your door.

Highlights

- **Five ways in, one smart lock:** Unlock using your fingerprint, PIN code, mechanical key, digital key, or directly through the Nexxt Home app.
- **Auto-lock for peace of mind:** Enable the Autolock function so your door secures itself every time you head out.
- **Grant access, your way:** Create up to 30 unique codes for family, guests, or anyone you choose—no key copies needed.
- **Full control from your phone:** Check the activity log and get notified of entries or failed attempts, no matter where you are.
- **Smart fit for your door:** Easy to install on most residential doors—no hubs, no hassle.
- **Built to last, ready for every day:** Powered by AA batteries and made to withstand daily use with confidence for up to 10 months.**
- **Stay powered, even when the batteries run out:** Use the USB-C® backup port to temporarily power the lock and regain access in case of low or depleted batteries.
